

RML Example 3: Hellocm

RML (Report Markup Language) is ReportLab's own language for specifying the appearance of a printed page, which is converted into PDF by the utility rml2pdf.

These RML samples showcase techniques and features for generating various types of output and are distributed within our commercial package as test cases. Each should be self explanatory and stand alone.

Hello World. This is a normal paragraph. Blah IPO blah blah blah growth forecast blah blah forecast blah. Blah blah blah blah blah blah blah profit blah blah blah blah IPO. Blah blah blah reengineering blah growth blah proactive direction strategic blah forward-thinking blah. Blah blah doubletalk blah blah profit blah growth blah profit. Blah blah venture capital blah forward-thinking blah.

This is another normal paragraph. Blah IPO blah blah growth forecast blah forecast blah. Blah blah blah profit blah blah IPO. Blah blah reengineering blah growth blah proactive direction strategic blah forward-thinking blah. Blah doubletalk blah profit blah growth blah profit. Blah blah venture capital blah forward-thinking blah.

I should NOT have a tiny leading space in front of me!

This is spaced. There should be 12 points before and after.
