

RML Example 13: Splitting

RML (Report Markup Language) is ReportLab's own language for specifying the appearance of a printed page, which is converted into PDF by the utility rml2pdf.

These RML samples showcase techniques and features for generating various types of output and are distributed within our commercial package as test cases. Each should be self explanatory and stand alone.

This page tests splitting - this PARAGRAPH in style 'style1' should split between the two frames on this page. This page tests splitting - this paragraph should split

between the two frames on this page. This page tests splitting - this paragraph should split between the two frames on this page. This page tests splitting - this paragraph should split between the two frames on this page. This page tests splitting - this paragraph should split between the two frames on this page.

RML Example 13: Splitting

This page tests splitting - this PRE in style
'style1' should split between the two frames on this page. These

frames should be ON PAGE TWO, otherwise this test has FAILED. This
page tests splitting - this preformatted paragraph should split between the
two -- (proves this is a pre)
frames on this page. This page tests splitting - this pre should
split between the two frames on this page. This page tests splitting -
this pre should split between the two frames on this page. This
page tests splitting - this pre should split between the two
frames on this page. Leading space
 should be preserved!

RML Example 13: Splitting

<i>This tests</i>	<i>how a</i>	<i>simple table</i>
-------------------	--------------	---------------------

<i>splits</i>	<i>across</i>	<i>frames</i>
<i>blah</i>	<i>blah</i>	<i>blah</i>

RML Example 13: Splitting

This page tests splitting - this is a pluginFlowable from mymodule.py, using XPreformatted a reportlab style 'Normal' . It

should split between the two frames on this page. These frames should be ON A NEW PAGE, otherwise this test has FAILED. This page tests splitting - this XPreformatted should split between the two frames on this page. This page tests splitting - this XPreformatted should split between the two frames on this page. This page tests splitting - this XPreformatted should split between the two frames on this page. This page tests splitting - this XPreformatted should split between the two frames on this page. This page tests splitting - this XPreformatted should split between the two frames on this page.
