GENERAL INFORMATION
This is an Advisory issued in accordance with the requirements of Procedures and Guidelines 1234.5. For information concerning processing and actions required to be conducted in conjunction with this information, refer to your contract, or to Procedures and Guidelines 1234.5. This information has been compiled and presented as accurately, completely, and objectively as possible consistent with the primary objective of alerting potentially affected projects as early as possible. This information may be altered, revised, or rescinded by subsequent developments or additional tests; and these changes could be communicated by other documents.

10. DISTRIBUTION
While the primary distribution for this document is internal to corporate and contract personnel, the information contained in this document is factual, and its release to, and use by, other entities is not restricted.

11. Problem Description and Details
After carefully strapping rocket on coyote with No. 5 rope, rocket ignites, but fuel consumption rate is excessive.

Net effect: coyote suffers unacceptable damage from unexpected collision with cliff.
